OBJECTIVE

Looking for an opportunity to apply my abilities in HTML, CSS, and programming, and my front-end and back-end development expertise in order to create user-friendly and scalable web applications. Looking forward to working on cutting-edge projects and being part of the team responsible for developing efficient systems with excellent UI/UX design.

EDUCATION

Panimalar Engineering College — B.Tech in Information Technology CGPA: 7.9 / 10.0 (upto 6th sem) — Oct 2022 – May 2026

Zion Matriculation Higher Secondary School — 12th Grade Percentage: 78.5% — May 2022

Alwin Memorial Public School — 10th Grade Percentage: 64.4% — March 2020

SKILLS

Languages & Frameworks: HTML, CSS, Java, React.js (Moderate), SQL
Web Development: Frontend & Backend Development, Responsive UI/UX Design
Soft Skills: Leadership, Good Communication

WORK EXPERIENCE

Internship – Altruisty — May 2025 – June 2025

At Altruisty, I was tasked with creating a career roadmap web application to assist users in realizing their career aspirations. I utilized **React.js** and **Tailwind CSS** for building the frontend, while the backend was written in **JavaScript ES6+** to track user progress and enable dynamic updates.

PROJECTS

Service Website – PNS Enterprises — June 2023 – Aug 2023

- Devised a real-time inventory management site for PNS Enterprises to monitor the inventory of fruits and vegetables.
- Worked as designer and developed the front end using HTML, CSS, and JavaScript with an intuitive and dynamic interface.

pnsenterprise.vercel.app

Food Catering Service Website — Feb 2025 – Apr 2025

- Created a web page for a food catering service that allows customers to interact seamlessly and manage orders and menus in real-time.
- Developed the frontend incorporating order and menu management with a fully responsive UI/UX design.

vignesh-catering-services.vercel.app

Materials Data Entry Website –Global India Corporation — Oct 2025 – Dec 2025

- Designed and developed the front end of a data entry platform to streamline material tracking and management.
- Focused on intuitive UI/UX for efficient data integration.
